

DIRECTIONS:

1. Add soil to the planter up to the level of the first planting hole. Gently pack firm so that it does not sink later.
2. Take one 2" Herb and plant into the first planting hole from the inside so that foliage is above the soil.
3. Add further soil up to the next planting hole, firming as you fill.
4. Repeat steps for the additional 2 side holes.
5. For top of pop-up planter follow the layout on the right --->
6. Water thoroughly.
